Author Correction: Space-Wave Routing via Surface Waves Using a Metasurface System

Karim Achouri & Christophe Caloz

Correction to: *Scientific Reports* <https://doi.org/10.1038/s41598-018-25967-8>, published online 15 May 2018

This Article contains an error in Figure 9, where Figure 9b is a duplication of Figure 9a. The correct Figure 9 appears below as Figure 1.

Figure 1. Absolute value of the transmitted electric fields (E_x component) obtained by angular spectrum propagation. **(a)** Without alteration of its angular spectrum. **(b)** After removing the incident wave contribution [range $0.2 < k_x^t/k_0 < 0.8$ in Fig. 8a]. The metasurface system is at $z = 0$ and extends from $x = -22.5$ cm to $x = 22.5$ cm.
