CORRESPONDING AUTHOR: Kang Zhou (e-mail: kangzhou@eias.ac.cn).

Because of the PDF conversion error, the shadow backgrounds in Figs. 13(a) and 17(a) in our previously published review article [1] vanished. The correct figures are shown in this correction.

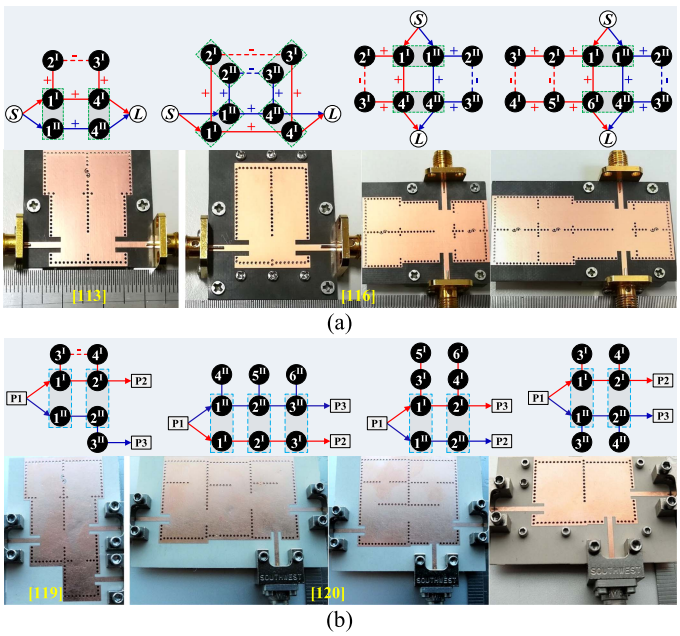

FIGURE 13. SIW multiband BPFs and multiplexers using multimode-splitting hybrid scheme. (a) Tri-/quad-/quint-band BPFs. (b) Tri-/quad-channel diplexers.

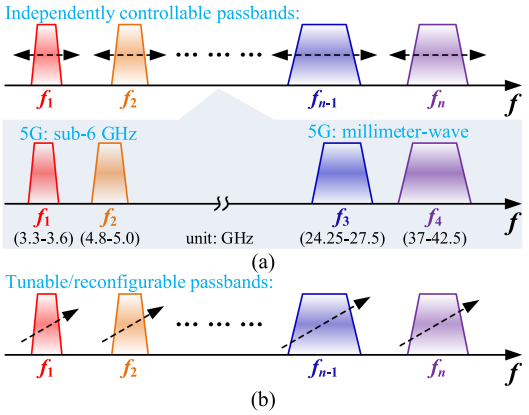

FIGURE 17. Future research and development orientations of SIW multiband BPFs and multiplexers. (a) Independent/flexible controllability of multiple channels. (b) Tunability/reconfigurability of multiple passbands.
