

Titre: Development and preclinical evaluation of an endonasal Raman spectroscopy probe for transsphenoidal pituitary adenoma surgery.
Title: Supplément

Auteurs: Victor Blanquez-Yeste, Félix Janelle, Trang Tran, Katherine Ember, Guillaume Sheehy, Frédérick Dallaire, Eric Marple, Kirk Urme, Moujahed Labidi, & Frédéric Leblond
Authors:

Date: 2025

Type: Article de revue / Article

Supplementary Material

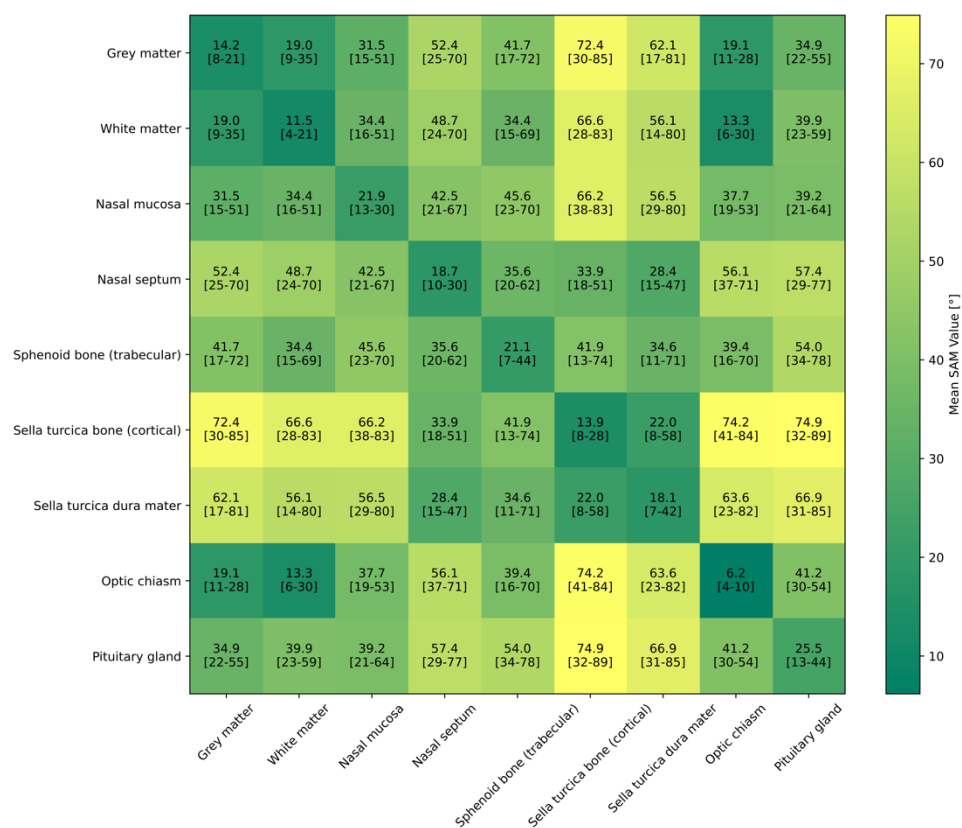

Fig. S1 Spectral Angle Mapper (SAM) values computed between individual Raman spectra of tissue pairs. For each pair, the mean SAM value is shown, along with the range indicating the minimum and maximum observed angles.
