---

The authors wish to make the following correction to this paper [1]: In the *Materials and Methods* Section, there is a missing term (r^2) in Equation (3), which depicts Fick's second law of diffusion for spherical coordinates in the radial dimension assuming a constant diffusion coefficient. The equation should have been written as follows:

$$\frac{\partial C_{CXCL12}}{\partial t} = \frac{D_{eff}}{r^2}\left[\frac{\partial}{\partial r}\left(r^2\frac{\partial C_{CXCL12}}{\partial r}\right)\right] \quad (3)$$

Note that this typographical error does not affect in any way the results or conclusions of the article. The authors would like to apologize for any inconvenience caused to the readers by these changes.
